PROFILE

Third-year Computer Science student at PESITM, passionate about MERN stack development and full-stack engineering. Experienced in building scalable web applications using React, TypeScript, Firebase, and AI integration. Deployed multiple real-world projects including TypingPath and Java-based desktop apps. Strong focus on performance, clean code, and modern UI/UX.

PROJECTS

AI Powered Modern Typing WebApp (typingpath.com)

- [Typingpath](#) - Modern Typing Education Platform.
- Full-stack web application with AI integration and real-time user analytics.
- Architected and developed responsive typing training platform serving personalized lessons.
- Integrated **Google Gemini AI** for adaptive learning experiences and real-time feedback.
- Stack: **React 19, TypeScript, Firebase, Google AI API, Vite, TailwindCSS.**
- [GitHub](#): github.com/Aditya1156/TypingPath

Airline Management System-Desktop App

- Designed an airline management system for booking and flight scheduling.
- Developed modules for **ticket booking, passenger management, and flight status tracking.**
- [GitHub](#): <https://github.com/Aditya1156/FlightManagementSys>

AI Chatbot For Logistics System

- Built a basic chatbot for logistics support using React.
- Integrated **Google Gemini API** for intelligent response generation.
- [GitHub](#): <https://github.com/Aditya1156/My-Chat-Bot>
- [Production](#): <https://godox.netlify.app/>

CERTIFICATIONS

Google Gen Ai Exchange
06/2025

EDUCATION

Expected in 01/2027

PES Institute of Technology & Management, Shivamogga, Karnat
Shivamogga, Karnataka

Bachelor of Engineering – Computer Science

01/2023

St. JOSEPH SCHOOL
Begusarai, Bihar

Senior Secondary (Science Stream)
